EXAMINER'S AMENDMENT

1. *An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.*

Authorization for this examiner's amendment was given in a telephone interview with Mr. Douglas P. Mueller on 10/01/2007.

The application has been amended as follows:

In claim 20:

On line 3, after "containing", -- the -- has been inserted.

On line 3 again, before "particle-holding", "a" has been replaced by -- the --.

On line 5, before "particle-containing", "a" has been replaced by -- the --.

The following is an examiner's statement of reasons for allowance: The prior art of record considered as a whole either alone or in combination fails to teach or suggest:

Regarding claim 1, an information recording medium comprising "the recording portion comprises at least one particle-containing layer comprising:

particles that absorb at least a part of light with a predetermined wavelength; are substantially transparent to recording light and reproducing light with wavelengths longer than the predetermined wavelength; and have an absorption rate with respect to the light with the predetermined wavelength being higher than the absorption rate with respect to the recording light and the reproducing light."

Regarding claim 20, a method for producing the information recording medium described in claim 1, comprising the combination of steps of forming and applying as set forth in the claim.

Regarding claim 23, an optical information recording/reproducing apparatus for recording/reproducing information on/from the recording medium claimed in claim 1, comprising the recording medium and "wherein by using the change in the optical constant of a recording portion of the information recording medium, an information bit is recorded on the recording portion three-dimensionally".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
